# KiBS COLLABORATION

SIMPLE, SIMPLE WEBMAIL, INSTANT MESSAGING AND OUTLOOK SYNCHRONIZATION FOR SMALL-TO-MEDIUM BUSINESSES EVERYWHERE

Kyliptix Business Services (KiBS) Collaboration consists of three services: Webmail, Instant Messenger and Outlook Synchronization. Users and companies can now choose the right tool for the job and integrate, track and manage a wide range of interactions between employees, customers and partners.

Key features of the Simple, Simple KiBS Collaboration include:

**KiBS Webmail** with its Simple, Simple user interface provides the full functionality you'd expect from an e-mail client. It has the unique ability to interact with other Kyliptix Business Services - making it that much more powerful by capturing e-mail interactions and associating them with the appropriate contact within KiBS Customer Relationship Management (CRM). Productivity is enhanced by keeping all of the information in a centralized location accessible from anywhere at any time.

KiBS Webmail also works hand-in-hand with KiBS Document Management. Attach documents stored within KiBS Document Management to KiBS Webmail and the e-mail and attachments automatically become an integral part of the recipients KiBS CRM contact record.

**KiBS Instant Messenger (IM)** a powerful productivity and business tool available to all KiBS users.

**KiBS Outlook Synchronization** combines the power and flexibility of KiBS Webmail with the single user capabilities of Microsoft Outlook by integrating tasks, calendar and contacts.

“KiBs provides our firm with the most functional, reliable and scalable email and contact management system that we have found in the marketplace.”

James D. Hornbuckle, Attorney, Dixon Law Corporation
